PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of production experience building backend-heavy web applications using Django and Django REST Framework, with frontend exposure in React.js. Strong experience in REST API development, authentication, role-based access control, e-commerce systems, billing workflows, and relational database design. Experienced in both independently owned backend projects and team-based production systems.

EXPERIENCE

POKAK Technologies Pvt. Ltd, Remote—Full Stack Developer

Oct 2024 – Present

- Developing and maintaining production full-stack web applications using Django, Django REST Framework, and React.js.
- Built and maintained secure REST APIs with authentication and authorization.
- Developed frontend features and dashboards and integrated APIs for smooth data flow.
- Worked on e-commerce, real estate, and business management systems used in live production workflows.
- Contributed to deployment and hosting of backend services in VPS-based environments

GVR Business Transforms, Remote—Junior Python Full Stack Developer

Jul 2024 – Nov 2024

- Contributed to a production full-stack application with a Python backend and integrated frontend components.
- Implemented backend logic, REST API endpoints, and database interactions.
- Collaborated with team members to deliver features and improve existing modules.

Maxlore Innovations, Kozhikode—Full Stack Developer

May 2023

- Developed Django-based web applications with user authentication and backend logic.
- Worked with MySQL databases, including query optimization and data handling.
- Assisted with testing and deployment of application features.

PROJECTS

E-commerce Backend System

Technologies: Django, Django REST Framework, PostgreSQL, JWT

- Designed and developed a complete e-commerce backend using Django and DRF.
- Implemented JWT-based authentication with both cookie and header flows.
- Built core features including users, addresses, carts, cart items, and wishlists.

Business Management & Accounting System

Technologies: Django, Django REST Framework, MySQL

- Contributed to a business management system supporting quotations, sales orders, delivery orders, invoices, and receipts.
- Implemented RESTful APIs and backend models for billing and order workflows using Django and DRF.
- Developed GST tax logic, including CGST and SGST, at item and document levels.
- Automated core accounting modules such as journals, credit/debit notes, trial balance, P&L, balance sheet, and cash flow.
- Designed and maintained relational database schemas and managed Django migrations in a production environment.

BricksNmix Web Application

Technologies: React.js, Tailwind CSS, Axios, Django, Django REST Framework, MySQL

- Contributed primarily to the frontend development of a role-based web application using React.js and Tailwind CSS.
- Built reusable UI components, dashboards, and integrated REST APIs using Axios.
- Implemented authentication flows and protected routes for Customer, Seller, Admin, and Sub-Admin roles.
- Contributed to backend features including SMS DLT-based OTP authentication, seller payout, and revenue modules using Django and DRF.

Freelancing Marketplace (Personal Project)

Technologies: Django, Python, PostgreSQL, HTML, CSS, JavaScript

- Developed a freelancing platform enabling interaction between freelancers and clients.
- Implemented authentication, role-based dashboards, and Razorpay payment integration.
- Built separate dashboards for admins, freelancers, and buyers.

TECHNICAL SKILLS

Languages: Python, JavaScript

Backend: Django, Django REST Framework

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Databases: MySQL

Tools & Platforms: Git, GitHub, Netlify, VPS

Concepts: REST API Design, API Integration, JWT Authentication (Cookie & Header-based), Role-Based Access Control, Authentication & Authorization, Database Design, Django Migrations

EDUCATION

Government Polytechnic College Mananthavady

Jun 2021 – Apr 2024

Diploma in Computer Engineering

Government Higher Secondary School Pannur

Jun 2019 – Mar 2021

Higher Secondary (+2) – Science
